

# Hirusha Jayasundara

Motivated ICT undergraduate with interests in Artificial Intelligence, Data Science, Data Engineering, and Business Analytics. Experienced in Python, SQL, machine learning, data visualization, and database technologies through academic and project-based learning. Passionate about research, data-driven innovation, and building intelligent solutions for real-world problems. Active IEEE and student leader with strong leadership, communication, teamwork, and project management skills, seeking opportunities to contribute to research, innovation, and emerging technologies.

## Projects

### University Data Warehouse System

Python | PostgreSQL | Streamlit | ETL | Data Engineering

- Designed a Star Schema data warehouse for university analytics
- Built automated ETL pipelines using Python and PostgreSQL
- Developed analytical SQL queries and Streamlit dashboards for university insights

### Formula 1 Performance Analytics

Python | Pandas | Scikit-learn | Streamlit | Matplotlib

- Analyzed Formula 1 race data using FastF1
- Developed ML models for race outcome prediction and performance analysis
- Developed dashboards for lap analysis and driver performance insights

### Payonic – Campus FinTech Ecosystem

Flask | JavaScript | SQLite | SQLAlchemy

- Developed a campus digital payment ecosystem
- Implemented QR payments and wallet functionalities
- Built reporting and spending analytics features

### SmartLoan AI – Intelligent Loan Risk Prediction Research (Ongoing)

Machine Learning | Python | Flask/Streamlit | Financial Analytics | Predictive Modeling

- Developing machine learning approaches for loan risk prediction and financial analytics
- Investigating predictive modeling techniques for financial decision support
- Exploring AI-driven solutions to improve accessibility and financial assessment systems

- Phone: +94 76 06 75 755
- LinkedIn: [linkedin.com/in/hirushajayasundara-676a8a249](https://www.linkedin.com/in/hirushajayasundara-676a8a249)
- GitHub: [github.com/Hiru-stack/Hiru-stack](https://github.com/Hiru-stack/Hiru-stack)

## Skills

### Technical Skills

- Python Programming
- Data Analysis
- Machine Learning
- Web Development
- Database Management
- SQL
- Data Visualization
- PostgreSQL

### Tools

- Pandas & NumPy
- Power BI / Excel
- Git & GitHub
- Jupyter Notebook
- VS Code

## Educational Background

### Bachelor's of Information and Communication Technology Honours(Reading)

- University of Vavuniya
- GPA: 3.40 / 4.00

### Diploma of Education, Cyber security and ethical hacking

- SITC Campus
- Completed with Credit Pass (A+)
- (August 2023 - January 2024)

## Volunteer Experience

### IEEE Innovation Nation Sri Lanka

- Project Coordinator(Secretary Team)
- February 2026 - Present (4 months)

### Sasnaka Sansada Foundation

- Mentor | Ambassador | Former HR Team Member | Translation Team
- March 2022 - Present (4 years 2 months)

### IEEE WIE Student Branch Affinity Group of UoV

- Chairwoman
- October 2025 - Present (8 months)

### Leo Club of University of Vavuniya

- Secretary
- June 2025 - Present (1 year)
- Assistant Secretary
- September 2024 - June 2025 (10 months)

### IEEE Computer Society SYP

- Industry Committee Engagement Lead
- October 2025 - January 2026 (4 months)

### IEEE Computer Society university of vavuniya

- Secretary
- 2024 - October 2025 (1 year)

## Languages

- English(Fluent)
- Sinhala(Native)
- Tamil (Intermediate)
- Korean(Intermediate)
- Hindi(Beginner)

## Soft Skills

- Leadership
- Teamwork
- Communication
- Problem Solving
- Project & Event Coordination

## Research Interests

- Artificial Intelligence
- Machine Learning
- Data Science & Analytics
- Data Engineering
- Financial Analytics
- Business Analytics

## Achievements & Recognition

- Awarded Most Outstanding Club Secretary – Leo Club of the University of Vavuniya
- Awarded Most Outstanding Club Administration – Leo Club of the University of Vavuniya
- Awarded Most Outstanding Project (Mental Health & Wellbeing Category) – RELive Project
- Awarded Most Outstanding Project (Peace, Religious & Cultural Activities Category) – Harmony Fest Project

## Referees

• Ms. R. Yasotha  
Senior Lecturer, Department of Physical Science  
Faculty of Applied Science  
University of Vavuniya, Sri Lanka  
Email: yasotha@vau.ac.lk

• Ms. Imasha de Silva  
Lecturer, Department of IT  
Esoft Metro Campus , Sri Lanka  
Email: yasotha@vau.ac.lk
